

RPD Standard Materials Guide

All of the material information on this website is for reference purposes only. Specifications are subject to change without notice. Exact material specifications will vary depending upon manufacturing process and manufacturer.

Consult with your Sales Representative if exact specifications are required.

Elastomer	Application
Natural Rubber	Tires and tubes, gaskets, shock mounts
SBR (Styrene Butadiene)	Same as natural rubber
EPDM (Ethylene Propylene)	Auto parts, dust covers, conveyor belts
Neoprene (Chloroprene)	Petroleum and tank linings, automotive gaskets, molded products
Nitrile	Gas and oil resistant hoses, gaskets and seals, o-rings, shock mounts
Fluorocarbon	O-rings, shaft seals, diaphragms, gaskets, and pump parts
Silicone	High and low temperature parts, o-rings and bellows
