Standard color black. *For Round Mounting Hole only. For DD Mounting Hole Plug, consult Heyco.

Material: Nylon 6/6 w/Buna N Sealing Gland
 Certifications: RA Recognized under Underwriters' Laboratories File E51579
 Certified by Canadian Standards Association File 093876
 Flammability Rating: 94V-2
 Temperature Range: -04°F (-18°C) to 221°F (105°C)

- Unique fingers securely lock into a range of panel sizes without use of locknut.
- Pigtail: Integral nylon spring eases the cable into a lazy bend; prevents kinking and assures longest cable and product life.
- Smooth, rounded interior edges for ease of installation.
- Limited intrusion into enclosure where access is tight.
- Rotation prevented when used in Double D mounting holes.
- Easy to install—no tools required.
- Ratchet design of sealing nut assembly provides superior anti-vibration and ensures a firm grip on the cable.
- Available in multiple sizes for cable diameters ranging from .210" (5,3 mm) to 1.560" (39,6 mm).
- We recommend using the fitting with the smallest maximum diameter that will fit your application.
- Meet UL strain relief requirements without kinking the cable.
- For Foam Washers, see page 2-20.
- Though similar in appearance and function to Heyco-Tite Liquid Tight Cordgrips, Snap-in Cordgrip Strain Reliefs may not be liquid tight at the panel interface. For our complete range of **Liquid Tight** Cordgrips with Integral Sealing Ring, see Section 3.
- Use Heyco **Mounting Hole Plugs** for DD Mounting Holes, or **Heyco Dome Plugs** for round Mounting Holes, to fill blank/unused Mounting Holes and thus allow for a single panel design across multiple applications. See section 6.
- For Double D Mounting Hole Punches, see page 4-30.
